

# MMRCL achieves breakthrough in two places

## The first one was at the proposed Vidhan Bhavan Metro Station and the second took place at Vidyanagari in Kalina

**STAFF REPORTER**

Mumbai

the second at Vidyanagari Kalina. Bringing the total breakthroughs achieved for

this underground metro project to thirteen.

According to the tweets posted by the MMRCL, "MMRC's PKG 1 delivers its first breakthrough at #VidhanBhavan metro station. 95 m long TBM Surya 1 began its Upline journey at CuffeParade & tunnelled across 1.2 Kms to reach its

destination." This tunnelling had started on August 10 last year.

Immediately in the second tweet, Mumbai Metro 3 stated, "TBM Godavari- 4 delivers 12th breakthrough for MMRC & a 3rd one for PKG 5 at Vidyanagari south shaft. With this Metro 3 today accomplished 2 breakthroughs in a day with first one being at VidhanBhavan station this morning."

Mumbai Metro Rail Corporation Limited (MMRCL) undertaking the construction work of the Metro-3 (Colaba-Bandra-SEEPZ) corridor achieved breakthroughs at two different places on Thursday. The first breakthrough took place at proposed Vidhan Bhavan metro station and
