

# ALSTOM, MMRC MOCK-UP OF MUMBAI METRO LINE 3 ROLLING STOCK

Alstom and Mumbai Metro Rail Corporation (MMRC) unveiled the life-sized mock-up of the trainset for Mumbai Metro Line 3 (Aqua Line). Speaking of this milestone, Alain Spohr, MD, Alstom India and South Asia said, "Our objective was to create an appropriate, future-proofed design that is relevant to the people,

the city and their expectations. This theme is called - Dynamic Fluidism. All technical and manufacturing parameters have been met in respect to the high interior density layout and space efficiency. Alstom is committed to support MMRC in easing the transportation challenges of Mumbai. With the project stipulating more than 80% localised manufacturing, this contract further reinforces the com-

pany's commitment to invest, grow & Make in India." MMRC awarded Alstom a contract worth Rs. 315 mn to supply 31 lightweight, fully-furnished modern passenger trainsets of 8 cars each (total 248 metro cars) for Mumbai Metro Line 3. Along with rolling stock, Alstom will also execute the power supply contract and equip Line 3 with Urbalis 400, its latest generation of CBTC signalling technology.
