In this public consultation 307 people were present who were affected by this project. The list of the persons present is attached as appendix – 1. The details about point raised by the project affected persons and reply to their quarries have been tabulated below:-

Sr. No.	The points that were raised by the PAP's.	The information provided by the officers
1	We should get 269 sq. ft. area's rooms as per new SRA rules.	When MMRDA's rehabilitation plans were getting ready at that time SRA's rule was only for 225 sq. ft. That's why only 225 sq. ft. area's rooms are available. If in future when 269 sq. ft. Size rooms are made available, then these size rooms' distribution may be considered.
2	Many homes are not given I.D. no. or homes are two but only one notice is received.	· · · · · ·
3	We feel that our rehabilitation must be done in the same area. M/s Aakruti developers is implementing an SRA scheme through MMRDA and we should be rehabilitated through this scheme only.	We have to get information of the Metro-3 project affected people included in M/S. Aakruti Developers - SRA scheme. Moreover we do not know as to how many years this project will take to complete. Metro-3's project work can't be delayed till the SRA project is completed. For Metro-3 project the timely Rehabilitation is very essential. After acceptance of rooms allotted by MMRC, at a later stage PAP's can opt for shifting to developers SRA scheme as per the norms for qualifying in SRA scheme. They have to return /surrender already allotted rooms under MUTP scheme. However the criteria for resettlement in the SRA scheme and MUTP scheme are different and the concerned PAP's should take a note of this.
4	In Metro-3 project the local jobless persons should get jobs. Most of the project affected people work in the area at MIDC or near SEEPZ & they would face the problem of their jobs. Therefore all such people must be given rehabilitation in the nearby area only.	The point has been taken into consideration. Policy decision may be taken for helping those who may lose lost their jobs due to displacement & if they are below poverty line.
	Whosesoever's land is bigger than 225 sq. ft. or whosesoever has private land, what is the actual provision for them as per rule?	Whosesoever's land is private they must submit their ownership documents/poof. Once their documents are examined by authority, proper decision will be taken. When the question of rehabilitation comes the real users would be given homes & the land owners could be offered the compensation for their land value as per the rules & regulations. Even if slum owner's rooms are bigger in area they will be given rooms as per the policy of the resettlement only.

6	ml - p -1 -1 -1 -1 - 1 - 1 - 1 - 1 - 1 - 1	
6	The Rehabilitation societies are far away from the present school; therefore school children's journey would be extended. For school going children-long journey is no possible.	bus service from the Rehabilitation society to the original place. In near future there could be transport facilities available for connecting all the routes so that journey could be easier. The recommendation letter can be given to the students who are seeking admission in new school and facing any problem.
7	Many of PAP's homes have independent upper floor, where independent family is residing. What sort of solutions/plans is available?	resettlement for upper floor families as per
8	How many sq. ft. non-Residential galas are available in this scheme for Rehabilitation?	For Metro-3 project as per MUTP's Rules Regulations for rehabilitation the project affected persons (Non-residential/commercial) get new area which would be equivalent to the old affected area only for Ex:- If the affected area is of 100 sq. ft. then for rehabilitation, equivalent area of 100 sq. ft. area will be given. But in MMRDA's bldg. if 125 sq. ft. size non-residential shops are available and PAP's wants to accept, then as per Ready Reckoner rate, cost for extra 25 sq. ft. are required to be paid. As per availability maximum area of commercial galas is 750 sq. ft. this could be given out of which 225 sq. ft. area would be given free of cost.
9	are residing & our rehabilitation would be at the other place due to which we won't get any benefit out of it.	At Oshiwara & Wadala Bhakti park various transport PROJECT are being undertaken e.g. Monorail, Eastern freeway, Metro-2 etc. At Oshiwara new road development's work is being under taken & at wadala MONORAIL PROJECT has already been started. There is a proposal for Wadala to develop as important center like BKC. Looking at all these factors it is beneficial in future to have rehabilitation at Wadala.

This project affected people were given information that if they want to have any further information in addition to the above discussed points they can get it from the branch of Rehabilitation of MMRC.

The meeting then ended with thanks to all the participants with a Request seeking Co-operation of Resident in timely implementation of the project.
